Commercial Projects Reference

Fraser Coast Airport – Hervey Bay

Customer Profile

Major upgrade of an existing regional airport. The airport will cater for large domestic jets and increased visitor numbers.

Customer Issues

- ▶ Installation of scope as specified
- ▶ Fast track project with an absolute “drop dead” completion date.
- ▶ Co-ordination with other trades and builder
- ▶ Safety

Project Objective

Install mechanical and electrical services for a major upgrade to the existing airport

Project Scope and Results

- ▶ Full mechanical services installation including air conditioning , ventilation systems and exhaust systems
- ▶ Direct Digital Controls(DDC) installation
- ▶ Electrical infrastructure upgrade including new mains, sub mains, communications lighting and general power.
- ▶ Service and Training
- ▶ Project Management
- ▶ Preventative Maintenance

Project Size

\$1,200,000 to \$1,500,000

Contract Dates

Mar 2005 - Jul 2005
